About The ALS Association New Mexico Partner

Amyotrophic lateral sclerosis (ALS), commonly known as Lou Gehrig's Disease, currently afflicts more than 30,000 Americans, **with a new person diagnosed every 90 minutes**. ALS affects people all over the world with no racial, ethnic or socioeconomic boundaries. It is a progressive disease that affects nerve cells in the brain and spinal cord. When ALS attacks, it stops muscles throughout the body from working and eventually leads to death. Military personnel have a 50% higher chance of contracting ALS and a 60% higher chance if they are a Gulf War Vet.

The ALS Association is the only 501(c)(3) non-profit organization dedicated solely to fighting ALS through a nationwide network of chapters and certified centers that provide compassionate, caring support and state-of-the-art, multidisciplinary care to those diagnosed and their families - empowering them to live fuller lives.

Here in New Mexico, The ALS Association New Mexico Partner serves the entire state of New Mexico, Southwest Texas, Southern Colorado and Eastern Arizona.

We cannot fight this fight alone. We need your help. Please call our office today at 505-323-6348 to find out how you can help us find a cure for ALS or visit our website at www.alsnm.org.
